

---

Dear Sir/Ma'am,

To briefly introduce myself, my name is Francis Victa, and I am currently a student at **George Brown College** of the **Computer Programmer Analyst** diploma program, expected to graduate this coming summer of 2020. I'm very dedicated to my work, and I'll stop at nothing until I'm able to deliver and achieve what my objectives are. If it's any indication at all, my current cumulative GPA is at 3.98, although I am can definitely prove myself better with the projects I have worked on (which can be found on my [Portfolio Website](#)).

What I can offer:

- Experience with most popular programming tools
- A solid foundation in OOP principles and MVC architecture
- Querying SQL and NoSQL for database
- Designing endpoints for APIs
- High-level analysis and problem solving techniques
- Not afraid to fail and experiment to get something done better
- I'm also an efficient learner so I can simply learn anything I'll need to complete various tasks

In my previous work experiences, not only have I performed well on my responsibilities, but I am also proud to say that I have always **exceeded my employer's expectations** of me. I have ingrained it in myself to always aim to do more or do something greater than what my current role allows me to. This enables me to always learn new things and grow with the people I am surrounded with. This mindset actually resulted in me receiving a Bravo Award and Team Member of the Month Award from my previous workplaces. If given the chance, **I would love to contribute and grow with your company**, which is why I am humbly asking for an opportunity to be a part of it!

Being able to do greater things, with the additional tools and knowledge is what ultimately made me decide to pursue my passion for technology. It is also because of this that I believe I will fit very well in your organization. I am always learning, and I wish to continue this while contributing what I can. I am sure that I will give my best in anything I do.

I am very excited about the opportunity to be associated with your company and I hope to hear from you soon.

Sincerely,

Francis B. Victa
